

DESIGN IN THE TWIN CITIES

INSPIRED SPACES FOR LIVING BEAUTIFULLY

Julian Design Custom Interiors brings a passion for out-of-the-ordinary design to creating homes that will stand the test of time.

When long-time clients came to Julian Design to reimagine an undefined and underused upstairs space in their home, they knew the team would usher in gorgeously rendered, made-to-fit comfort.

“Our clients know how they live better than we do,” says Julie Ann Witt, owner and principal designer. “Great design is not just about creating a beautiful space, but enhancing how it is lived in. Julian Design helps shape the art of living with a hand-tailored design specific to our clients.”

That custom process begins with a comprehensive consultation phase to get to know clients’ lifestyle and vision for their space. Guiding them through a discovery of how to maximize use of their home to fit their needs is central to creating the final design. Beyond adding style, the goal is always to bring flexibility, longevity, and substance to their space. Sometimes that’s new furnishings and finishes, and other times it’s a manipulation of their interior architecture.

“The clients wanted a more informal gathering space for both their day-to-day family life and entertaining friends,” says Billie Marie Tharaldson, senior designer. “We created a new experience for them in their home, and they now use it every evening. That’s the greatest compliment we can get.”

While Julian Design offers a truly unique customer experience and exceptional results, the team strives to make great design obtainable and accessible.

“We can work with you to make what inspires you happen,” says Lacy Hughes, interior designer. “It’s an investment in living beautifully that will uplift you for years to come.”
